NATIONAL POULTRY IMPROVEMENT PLAN

National Plan Hatcheries, National Plan
Dealers, and Independent Flocks--

- Egg-Type and Meat-Type Chickens
- Turkeys
- Waterfowl, Exhibition Poultry,
and Game Birds

ARS 44-6
Revised March 1972

U. S. DEPT. OF AGRICULTURE
NATIONAL AGRICULTURAL LIBRARY
RECEIVED

MAY 5 1972

PROCUREMENT SECTION
CURRENT SERIAL RECORDS

The National Poultry Improvement Plan became operative July 1, 1935, and the National Turkey Improvement Plan became operative September 25, 1943, with the approval of the Secretary of Agriculture. On December 3, 1971, the two Plans were combined under one title, "The National Poultry Improvement Plan," with separate provisions applicable to the different types of poultry.

The Plan operates under the authority of an appropriation made by Congress to the United States Department of Agriculture to be used in cooperation with the State authorities in the administration of regulations for the improvement of poultry, poultry products, and hatcheries. Authority for the administration of the Plan is now contained in the Department of Agriculture Organic Act of 1944, as amended (7 U.S.C. 429).

Provisions of the Plan are changed from time to time to conform with the development of the industry and with new information as it becomes available. These changes are based upon recommendations made at the biennial National Plan Conferences by official delegates representing participating breeders, hatcherymen, and flockowners from all cooperating States. Current provisions of the Plan are described in the publication ARS 44-234, "The National Poultry Improvement Plan and Auxiliary Provisions." This publication is available from Official State Agencies or upon request to the Animal Science Research Division, ARS, Beltsville, Maryland 20705.

A complete list of the names and addresses of the 47 cooperating Official State Agencies will be found on page 71.

Information in this publication was compiled by the Animal Science Research Division, Agricultural Research Service, U. S. Department of Agriculture. Trade names are mentioned in this publication solely to provide specific information. The mention of such names does not constitute a guarantee or warranty of the product.

PARTICIPANTS IN THE
NATIONAL POULTRY IMPROVEMENT PLAN

INTRODUCTION

The hatcheries, dealers, and independent flocks listed in this publication are participating in the National Poultry Improvement Plan, according to reports submitted by the Official State Agencies. This list of participants is published for the purpose of developing greater efficiency in the operation of the Plan. Additional information regarding participants may be obtained by writing to the Department or to the Official State Agency in their respective State. A list of these Official State Agencies may be found in the Appendix.

This publication is revised each year because of frequent changes in participation and the need for inspectors, hatcherymen, dealers, and others to have up-to-date information. In addition, the list is corrected several times during the year by issuing supplements.

The latest National Poultry Improvement Plan provisions, as contained in Title 9, Chapter IV, Part 445 of the Code of Federal Regulations, provide for recognition of different classes or types of fowl, as follows; Subpart B--Egg-Type Chickens, Subpart C--Meat-Type Chickens, Subpart D--Turkeys, and Subpart E--Waterfowl, Exhibition Poultry, and Game Birds. Participants producing these types of products are all listed in this publication. Participants handling egg- and meat-type chickens are listed together in table 1. The participants handling turkeys are listed in table 2 and those handling waterfowl, exhibition poultry, and game birds are listed in table 3.

Approval Numbers

In each of the above three tables, the numerals preceding the name of the State, together with those preceding the name of each participant, constitute the participant's approval number. For example, the approval number for the first hatchery listed under Alabama is 64-15. The No. 64 represents the State of Alabama; No. 15, Alabama State Hatchery, Inc., Dothan 36301. These assigned numbers may be used by participants on shipping labels, certificates, invoices, and other documents for identification. They may also be used as reference numbers for shipments to Member States of the European Economic Community.

Participant's Name and Address

Three types of participants are listed in this publication; those participating as a hatchery, as a dealer, or as an independent flock. For each State, the type of participant is given immediately above the first name in that category.

Hatching Egg Capacity

Figures in this column refer to the hatching egg capacity of hatcheries according to manufacturer's rating, including setting and hatching trays. Letter symbols in this column refer to products that dealers handle, as follows: E, hatching eggs; C, chicks; and P, poults. When an independent flock is listed, this column is left blank.

Products and Classifications

All products handled by participants listed in this publication meet the specific requirements for a "U.S. Pullorum-Typhoid Clean" classification. The combined letter and numeral symbols shown in the fourth column identify the particular strain or trade name of the participant's products (see tables 4 and 5 in the Appendix). Crosses are designated by combining the letter symbols and code numbers of both parent stocks, listing the male first. Thus a t29d8 code would indicate the participant was handling a cross consisting of a Vantress male mated to a Cobb WPR female. Additional classifications for which these products qualify are stated in column five by use of words or symbols, as follows: Approved, means "U.S. Approved"; Certified (E), "U.S. Certified for Eggs"; MG, "U.S. M. Gallisepticum Clean"; T, "U.S. Typhimurium Controlled" (available for turkeys only), and None, that the products have only the "U.S. Pullorum-Typhoid Clean" classification.

EGG- AND MEAT-TYPE CHICKENS

Explanation for Table 1

Participants listed in table 1 represent hatcheries, dealers, or independent flocks handling egg- or meat-type chickens. The products they handle have a letter symbol as follows:

a--White Leghorn	e--New Hampshire	k--White American
b--Rhode Island Red	g--Black Australorp	r--Other breeds and varieties
c--Barred Rock	h--Cornish	s--Egg production stocks
d--White Rock	j--California Gray	t--Meat production stocks

These letter symbols, together with accompanying numerals representing specific strain or trade names, are fully explained in table 4.

If the participants listed in this table handle other classes of poultry, they would also be listed in table 2 or 3.

TURKEYS

Explanation for Table 2

Participants listed in table 2 represent hatcheries, dealers, or independent flocks handling turkeys. The products they handle have letter symbols as follows:

- A--Broad Breasted Bronze
- B--Other Bronze
- C--Large White
- D--Small White
- E--Other varieties

These letter symbols, together with accompanying numerals representing specific strain or trade names, are fully explained in table 5.

If the participants listed in this table handle other classes of poultry, they would also be listed in tables 1 or 3.

Explanation for Table 3

Participants listed in table 3 represent hatcheries, dealers, or independent flocks handling waterfowl, exhibition poultry, or game birds. The products they handle have letter symbols as follows:

n--Game (pit)
r--Other breeds and varieties
w--Bantams
x--Ducks
y--Geese
z--Other birds (wild or semi-wild type)

These letter symbols, together with accompanying numerals representing specific breed, strain, or trade names, or other specific birds, are fully explained in table 4. Some participants in this section may also handle some standard bred breeds identified by some of the other letter symbols listed in table 4.

If the participants listed in this table handle other classes of poultry, they would also be listed in tables 1 or 2.
